Letters to the Editor

Writer cites discrimination

Editor:

I have just recently moved to Appomattox and I have been a supporter of WTTX Radio even before I moved here. What I want to know, is why is it that our home town station WTTX is left out of all community affairs, such as "Rail Road Day" when they in fact support OUR community without question.

A few examples: Blood mobiles, fuel assistance for the elderly and at Christmas help with the needy in our community. They also helped the American Heart Association and help the spiritual needs as well. They are always ready to support us, yet we don't support them.

How do you expect the people of our community to react to such a flagrant act of discrimination?

I was a reader of your paper and a supporter of "Rail Road Day" but I now have my doubts if I will continue either. Your response is welcome.

Robert Leebrick

P.S. I don't really expect to see this in print in your paper, because you discriminate like everyone else, against W.T.T.X.

Mondale and The Kremlin

Editor:

It is a shame when we have both a Presidential candidate and the Kremlin in Moscow trying to sell the American people the same myth regarding the Reagan foreign policy.

They would have you believe that President Reagan is a warmonger. The facts are far different--President Reagan invited the Russians to arms talks several times. They walked out in every case. He reacted with restraint when the Russians shot down the Korean air liner. They said that they would do it again. President Reagan took special action to ease Soviet fears about safety during the Olympics. The Russians stayed at home. President Reagan accepted Soviet invitations to talk about space weapons. They cancelled their invitations.

So, it is quite evident that the real warmongers are the Soviets and their self-appointed surrogate spokesman, Walter Mondale. I don't think that many of the American people are being fooled into believing that President Reagan is a man who does not want pesce. The facts prove that world peace is one of his highest goals.

Very truly yours,
Warren H. Zick

Campbell board lauded

Editor:

Three cheers for the Campbell County Board of Supervisors!

By unanimous vote these county leaders refused to designate a United Nations Day and sent a resolution to the Governor that proposed the dissolution of that organization. In concurring with this action Representative Dan Daniels of Virginia's Fifth Congressional District summed it up quite nicely: "The sooner that Tower of Babel sinks into the East River, the sooner we can get back to looking after our own interests".

Even a brief look at the United Nations is enough to clearly expose it anti-American, pro-Communist purposes. The United Nations charter is a Communist inspired document written by Soviet spy Alger Hiss in collaboration with the Russians Molotov and Vishinsky. Whole sections of this charter were lifted nearly verbatim from the Constitution of the Soviet Union. By secret agreement the military chief in charge of all United Nations military actions has been and will always be a Communist. The Korean War was a United Nations "police action" which was fought and paid for with American blood, sweat and tears, a war which was won but then deliberately lost when General Douglas McArthur was refused permission to bomb the bridges of the Yalu River and the hordes of Red Chinese were allowed to invade from the north. These same Red Chinese have subsequently been welcomed with open arms and cheers by the United Nations while our staunch allies and friends, the Chinese on Taiwan, were expelled.

The United Nations loudly condemns United States in Grenada, Puerto Rico and Central America while looking the other way as the Communists commit genocide on the peoples of Tibet, Cambodia, Viet Nam, Afghanistan and a gruesome list too numerous to mention.

The United Nations was created by Communists, is run by Communists and serves Communist purposes. Every County in Virginia should follow Campbell County's courageous example and join in a resolution to get us out!

Sincerely yours,
James B. Hutt, Jr., M.D.

Mondale critized

Editor:

This is one election that I hope all Americans will really take time to study the candidates before casting their vote. Walter Mondale makes no secret of the fact that he plans to raise taxes immediately if he becomes president. I don't know of one person who does not feel that our taxes are already high enough. Sure, he says he will not raise the taxes for those making under 25,000 and that's great. But, doesn't he realize what will happen when he slaps a 15 percent tax hike on business? The cost comes directly to the consumer. How else can the business continue to make the profit it needs? This translates to higher prices across the board, or inflation--the hallmark of the Carter-Mondale administration.

It matters not whose taxes he raises, all of us will end up paying the price. We should have learned our lesson during the previous administration. Double digit inflation sent prices soaring almost weekly.

We cannot allow Walter Mondale to do it to us again. His proposed tax increases will not reduce the deficit, they will fuel inflation, slow economic growth, and throw millions out of work.

I, for one, want no part of Mondale's dangerous scheme to raise taxes for whatever reason he claims. There has to be a better way to pay off our deficit. For a starter there could be higher taxes placed on the luxury items that those in the higher income brackets so readily purchase. Added sales tax is the easiest way of taxing as most definitely those who have the most are going to spend the most. This higher tax should only be added to luxury items and would not affect the lower income families and older people on set incomes. Our income tax system is far too complicated now, please, let's simplify not add more rules and regulations.

Sincerely,
Alice C. Martin

Fuel assistance plan slated

The Virginia Department of Social Services expects to have about $35 million available in benefits for its Fuel Assistance Program this winter to help eligible low-income households with heating costs.

Local departments of welfare and social services will begin taking applications for fuel assistance November 1. The Fuel Assistance Program, funded by federal grants and now in its sixth winter, will continue through Feb. 28, 1985, or until available funds are depleted.

"We expect benefit levels to be approximately 12 percent higher this year, primarily because of the increased availability of federal funds," Social Service Commissioner William L. Lukhard, said. "It should be remembered, however, that the program is not designed to meet the household's total cost for the heating season, but only to help offset the rising cost of home energy."

The actual amount of assistance alloted to each household is based on income, household size, and geographic area of the state. In addition to fuel aid, eligible households may receive up to $200 to help pay for repair or replacement of unsafe or inoperable heating equipment. Also, $4.5 million of this year's federal Low Income Home Energy Assistance Block Grant will go to the Virginia Weatherization Program to weatherize homes of low-income families. The weatherization of homes has resulted in significant long-term savings on heating costs.

Households applying for fuel assistance must verify the income of all household members.

Anyone needing further information about the fuel assistance program may call Mary Walker at the Welfare Department at 352-7125 or the Virginia Department of Social Services, toll-free, at 1-800-552-3431 during normal business hours. Hearing impaired individuals with access to a telecommunication device should call, toll-free, 1-800-552-2131.
